OAC Group C Scrum Meeting Minutes
Wednesday March 19th, 2023

Present:
Zach Prenovost
Karlen Speiser
Cam Wilson
Aidan Murphy

Meeting Purpose Summary:

Compile results from peer testing, prepare for client meeting. Create shared understanding of current status of project and what needs to be implemented going forward

WHAT TO DO

What have we added:

Backend filtering order history
Order search by phone numbers
Twilio phone and email confirmation set-up
Styling (front end works for mobile)
Functionality particularly for super admin (delete)

By end of week
- **Send clients screenshots of pages for verbage**

Ask
- **Phone number search on search for orders**
    - Ans: It's fine, black out some info that identifies the person (email)-
- **Do we want admin access by address or general location?**
- **How do we separate admin super admin in general?**
    - We should pick; do it in a way that's smart
- **Do they want an instructional or information page on the admin side to explain all the tools?**
    - Yes
- **How long should we expire orders?**
    - Don't expire orders

By end of project
- **Phone number standardization**

- **Order form error checking**
- **Staff should be able to edit info on staff accounts**
- **Change display to what page we are on (admin)**
- **Change stock on order**
-
