OAC Group C Scrum Meeting Minutes
Monday Jan 30th, 2023

Present:
Zach Prenovost
Karlen Speiser
Cam Wilson
Aidan Murphy

Meeting Purpose Summary :
Develop plan for accomplishing necessary tasks by next monday for in-person demo

Old business:
Anubhav Demo and critique

New business :
Backlog tasks:
Orders should decrease stock
Locations must be selected from DB (instead of how we have it now)
Meeting notes:
Backlog:
put order form on one page, maybe remove need for localstorage --> payment --> confirmation
show this information in a progress bar

- reset empty localstorage order info after putting order through

- use another simple website as a template

Anubav notes:

USER SIDE:

- error checking on order page, separate message for every missing/incorrect field
- cannot go backwards on order page (warning message req). *put order form on one page, maybe remove need for localstorage --> payment --> confirmation* show this information in a progress bar
- reset empty localstorage order info after putting order through
- put taskbar contents in header, maybe compress to taskbar if width<<
- use another simple website as a template
- order id checker for customer i.e. enter
- header/footer main through the page
- rotary logo once, OAC logo multiple times use color in theme
- SVG to make firewood bundle sketch

ADMIN SIDE:
- confirm password field in account creation
- Live orders remove approve or deny from pickup table
- Filter all orders (pickup and approve/deny)
- SuperAdmin function
